variables/V-color

### Rotary Union | 1 passage | SCS(M) 613010

The SCSM Series rotary unions feature triclamp ferrule connections and an FDA approved design for use with CIP (Clean-in-Place) systems.

### SCS(M) 613010

Type Passages Sanitary Tri-clamp 1 passage

	SCS(M) 613010
<b>Overall Diameter</b>	227.100 mm
<b>Overall length</b>	188.700 mm
Min Torque	38.420 Nm
Passage Size	97.400 mm
<b>Maximum Pressure</b> 1	1.5 MPa (15 bar)
Maximum Vaccum 1	24 HG
Max Speed 1	75 rpm
Temperature Range 1	-18°C à 105°C

 $^1\,$  Values are dependent on a combination of all application parameters. Please consult PES.

# Food-grade rotary union, tri-clamp ferrule connections

**General information** 

### SCS(M) 613010

Connection Sizes	DN15, DN20, DN32, DN50, DN65, DN80, DN100
Connection type	DIN 32676 & ASME-BPE connections available
Plating and Coating	Shaft/Housing : 316 Stainless Steel
Mounting	The SCS Series rotary unions connect at the ferrule clamp connection inlet and outlet

**Notice :** The provided technical data are the higher limits recommended in static condition. To obtain the correct dimensioning of the product, it is necessary to hold account of all the applicable dynamic forces, including the inertia of the manipulator, the configuration of the tools and the external forces applied.

The SCSM Series are engineered to minimize fluid stagnation points with smooth flow lines for clean fluid transfer. Specialized bearings are located in a sealed chamber designed keep lubricants in and contaminants out. The SCSM series feature food grade seals and bearing lubricant.

- Long oprating lifetime
- Permanent lubrication bearings
- CIP capability

- Avoid the need of complex piping arrangements
- Increased machinery performances
- Paiping maintenance mitigated

## expertise in connectivity
