

# **Manual Robotic Tool Changers | Compliant units & Covers | AC tray**

## **Sous titre**

### **The reference plate for automatic tool change**

AC Tray: the solution for reliable and precise use of automatic connectors and tools, with great flexibility of use.

---

The AC tray ensures a secure grip of the automatic connector and tool assembly. Thanks to its modifiable position depending on the application, it offers great flexibility of use. It is compatible with all the main EAOTs on the market and its floating system compensates for robot tolerances, providing reliable and precise use. Plus, additional trays can be added at any time, allowing for a highly flexible and adaptable system.

## **Advantages**

### **Benefits**

- Simple design and easy to you
- Cost-effective
