Robot Tool Changers | | Epsilon E50

	Master Adaptor	Tool Adaptor	
Reference	ER50	ET50	
Payload	25 kg		
Moment - Mx, My	88 Nm		
Moment - Mz	120 Nm		
Size	85x85x48 mm	85x85x48 mm	
Weight	0.590 kg	0.590 kg	
Couple/uncouple port	G1/8	n/a	
Repeatability - X, Y	0.020 mm		
Repeatability - Z	0.020 mm		
Maximum Axial Tensile Force (no	3.336N @ 0 barcouple port		
damage if exceeded)	input pressure		

Operating conditions

Operating temperature $5-60^{\circ}$ C **Operating pressure** $6 \text{ bar } \pm 1$ **User pneumatic pressure** $6 \text{ bar } \pm 1$

Epsilon exceptional lifting force for a small footprint

The line was designed to be a comprehensive family of tool changers that cover the entire range of the current CXC, MXC and Sigma tool changers we already make (ranging from 10kg. to 1,500kg.)

This is a Tool Changer Evolution. Our cam design has stood the test of time and even with extensive research; we couldn't do anything better. In fact, we are so confident in our locking mechanism that we offer a lifetime guarantee on it. We also made sure to incorporate new market requirements and customer feedback to design these tool changers; that's why we extended the availability of couple/uncouple sensing and came up with a direct bolt design to limit the need of adaptor plates.

Advantages

 High Strength Aluminum Alloy Body

Benefits

Cam Locking Mechanism with:

- Lifetime Guarantee
 - Self-Centering
 - Wear Compensating
 - o Self-Cleaning
 - Positive Cam Retraction
- Optional Couple/Uncouple Sensing
- Optional Tool Present Sensing
- 8x G1/8 User Pneumatic Ports

- Maximul robot payload still available
- Reduced maintenance cost
- Minimized total cost of ownership
- Easier installation, less accessories costs

expertise in connectivity
